Welcome to Mishme

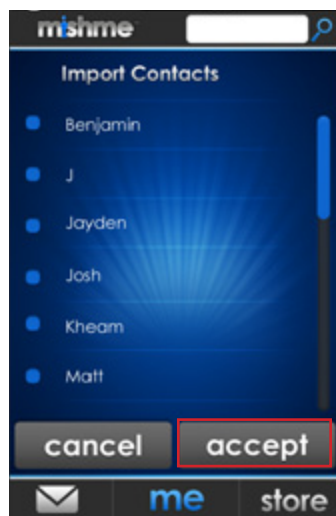

When you first open mishme you will be asked to "login" or "register" if you do not already have a mishme account you will need to register.

Registering a mishme account: Registering an account is quick and easy, simply select "**register**" and enter the required information then select "**create**" to make your mishme account. Upon registering you will be given a free starter avatar for you to use and then be taken directly to the "**import contacts**" screen.

Importing Contacts: In order to use mishme you will need contacts to send your messages to, mishme makes this easy by giving you the option to import contacts direct from your smart phone the first time you run the app. (You can also import more contacts at a later date if you wish to.) Importing contacts is a simple matter of selecting the **check boxes** of whichever contacts you would like to add into mishme from the list provided, once you are done select "**accept**".

Please note: The next time you login to mishme you will be taken directly to your "**inbox**".

Getting to Know Mishme

Excluding your first time using mishme when you open the app you will automatically be taken to the inbox where you can view all the messages you have received new and old we will take a closer look at the inbox and managing messages further in this document so for now lets just take a quick tour through navigating mishme:

Context Sensitive Search:

Depending on where you are in mishme you will see a search box in the top right hand corner of the screen this will search for content related to where you are, for instance when you are in the inbox it will search for messages where as in the store it will search for avatars and products.

Mishme Messages:

This will take you to the mishme messages section of the app here you manage your messages, view old mishmes and create new ones, if you move away from the messages section the app will remember where you were so tapping the mail icon again will return you to that point for example: If you were in the middle of creating a message but wanted to buy a new avatar you could go to the store purchase an avatar then return to your message without having to start the message all over again.

Mishme Store:

Tap here to be taken to the mishme store in which you will be able to purchase a variety of Premium Avatars or customize your own with Kewbz or Chibis etc you will also find Micro content and other products such as content packs with sounds and backgrounds for you to use.
Please Note: to use the store you will need a Samsung Google account.

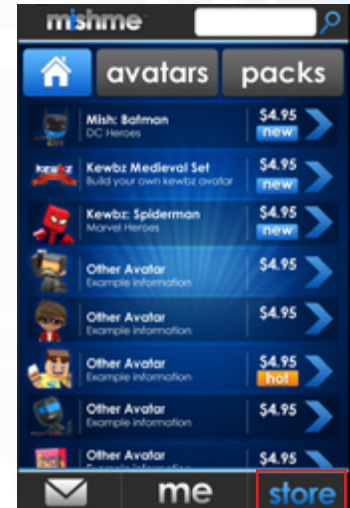

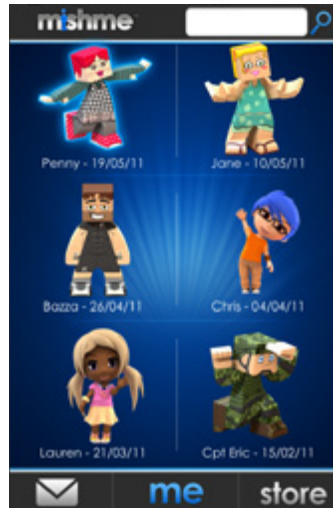

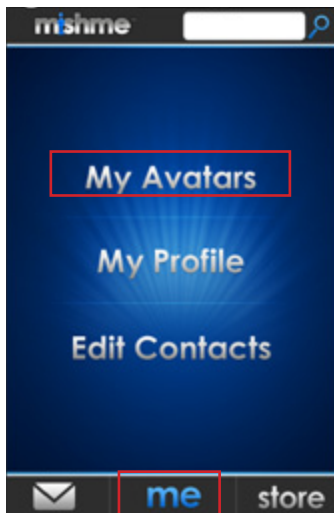

Mishme Me:

In this section you you will find the all of the administration options for mishme, here you can add, edit and delete contacts, update your profile details as well as view all the avatars you have purchased and downloaded. pressing this button will return you to the "me" menu.

Mishme Me

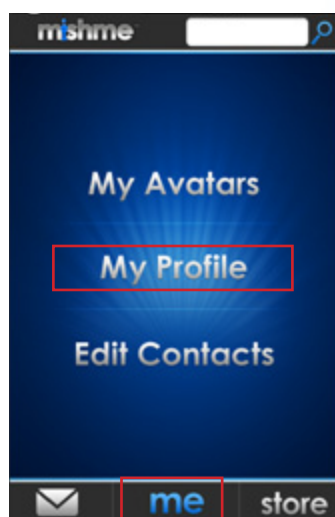

Your Avatars

Under the “**me**” menu you will find “**My Avatars**” selecting this option will take you a list of all the avatars you have purchased and downloaded from the **mishme store**. Mishme comes with one default avatar the generic blue Mish which will be added to your account when you register but there are also a number of free demo avatars available from the mishme store for you to download and use.

Updating Your Profile

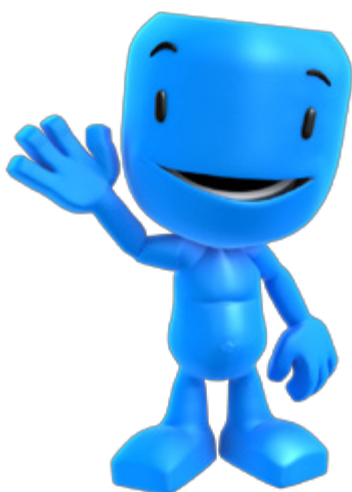

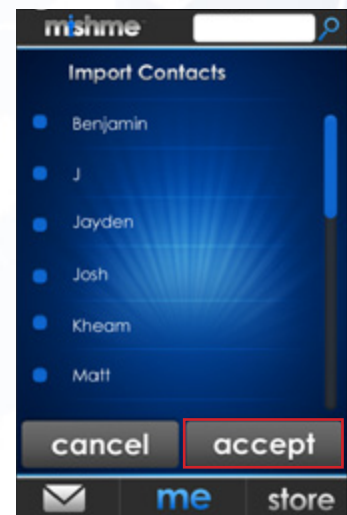

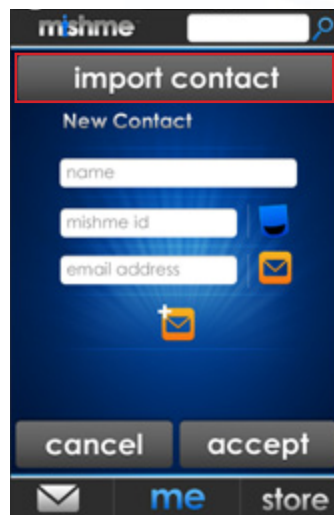

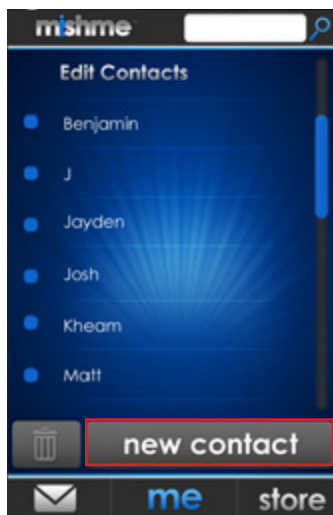

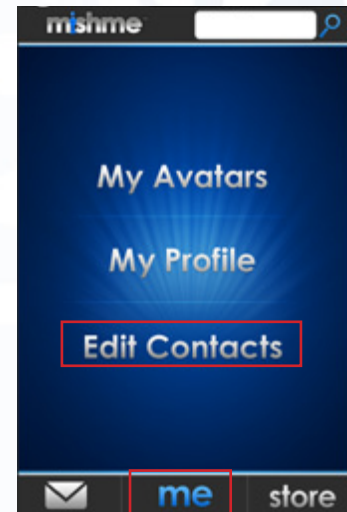

Under the “**me**” menu you will find “**My Profile**” selecting this option will take you to your personal profile this is where you can update your own details such as: Email address, name, gender etc. once you have completed updating your profile select “**update**” to commit the changes.

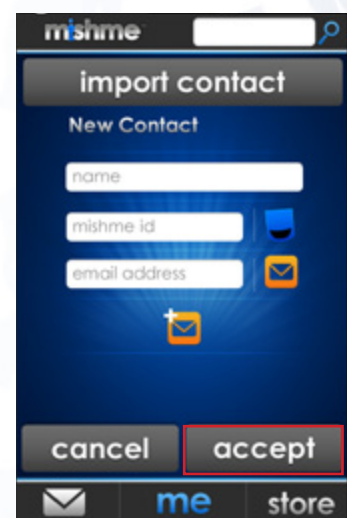

Managing Your Contacts

Currently mishme contacts can have **one mishme account** and **3 email addresses** assigned to them and like everything in mishme editing or adding new contacts is a relatively simple procedure, performing these action can be done from the **"Edit Contacts"** screen found in the **"me"** section of mishme.

Adding a new contact: Adding a new contact to your mishme address book is as simple as selecting **"new contact"** from the **"edit contacts"** screen, this will take you to the new contact screen at the top of the page you will find the option to **"import contacts"** from your smart phone.

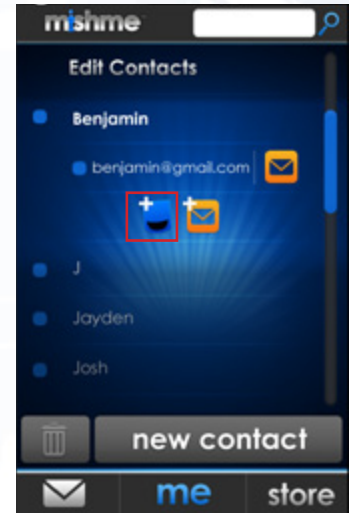

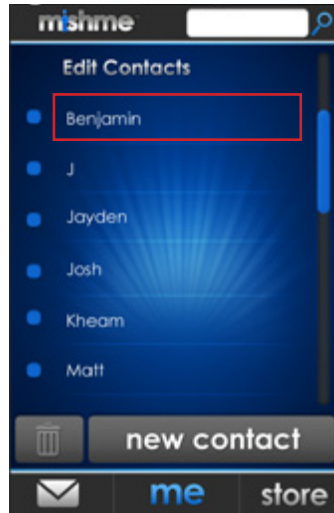

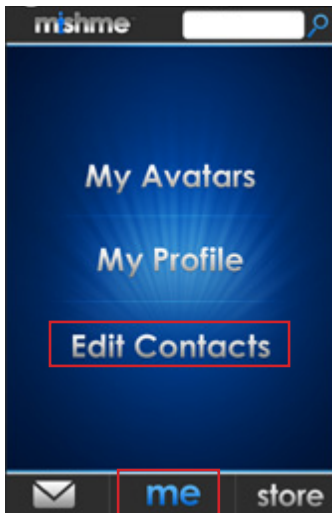

Alternately you can fill in the required information and make a single new contact. Enter a **name** and if you know your new contacts **mishme id** enter it in as well, if not simply enter an **email address** on its own. To add a secondary email address select the **"+email"** icon. Once you have completed entering your contacts details simply hit **"accept"**.

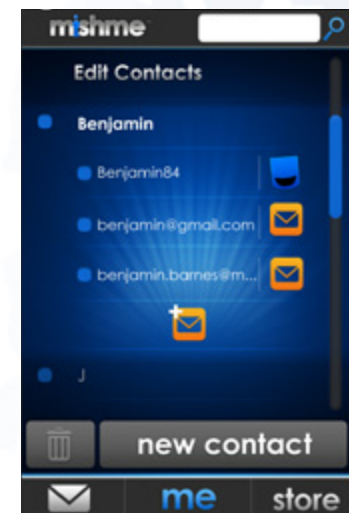

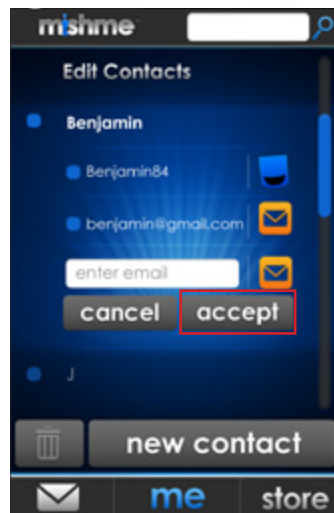

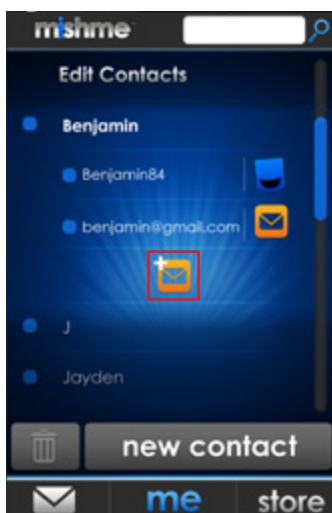

Mishme Me

Editing a contact: You may wish to add a new email address to an existing contact or delete a contact's email address to do this one needs to go to the "**Edit Contacts**" screen from the "**me**" section of mishme. Tap the **contact** you wish to edit to open a drop down list of all the points of contact assigned to them. If the contact does not have a **mishme id** assigned to them then you will be able to add one by tapping the **"+ mishme" icon**. If they already have a **mishme id** then you will only be able to add **email addresses**.

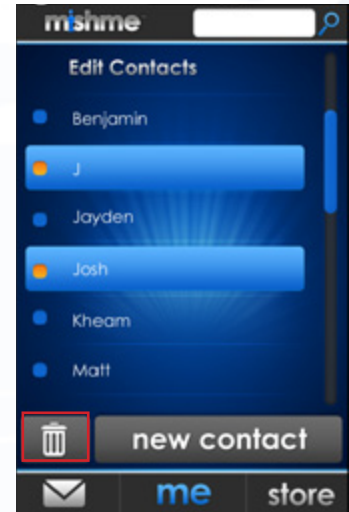

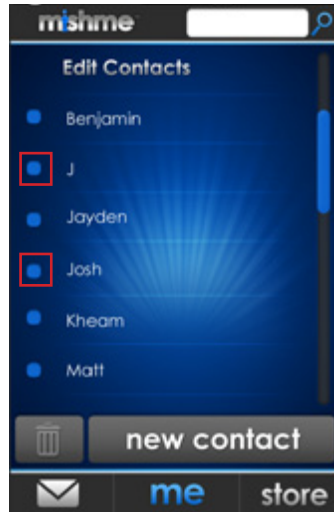

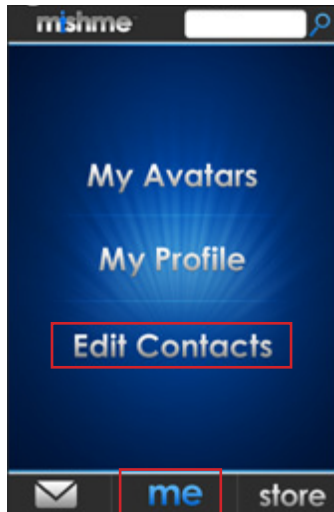

To add an email address to a contact all you need to do is tap the **contact** you wish to edit to open the points of contact drop down list then select the **"+ email" icon** and enter the contact's new email then hit **"accept"** and just like that, you may wish to include their personal email and work email.

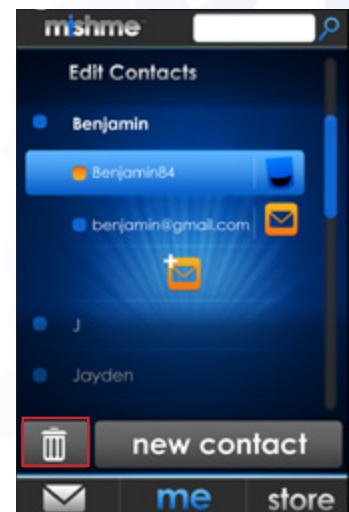

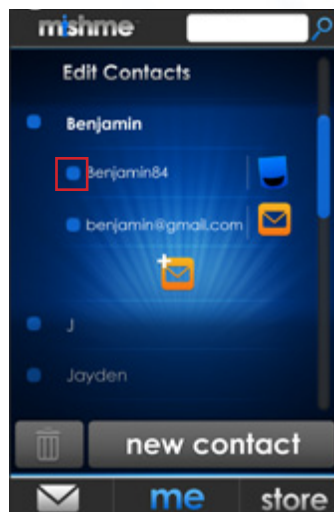

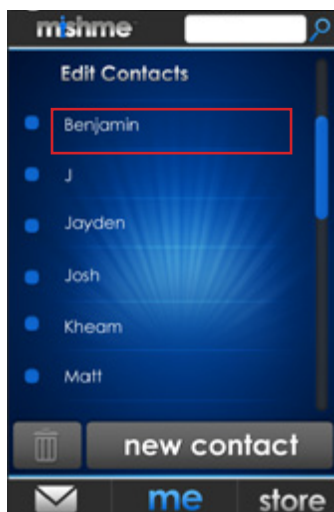

Mishme Me

Deleting contacts: You may wish to delete a contact or multiple contacts from your mishme address book to do this simply select the **checkboxes** beside the contacts you wish to delete then hit the **"trashcan" icon** at the bottom of the screen.

Deleting points of contact: You may wish to delete an email address or multiple email addresses from one of your contacts to do this simply tap the **contact** you wish to edit to open up the points of contact drop down list then select the **checkbox boxes** beside the points of contact you wish to delete then hit the **"trashcan" icon** at the bottom of the screen.

Please Note: by selecting the checkbox next to the contacts name you will delete that entire contact including all of its assigned points of contact.

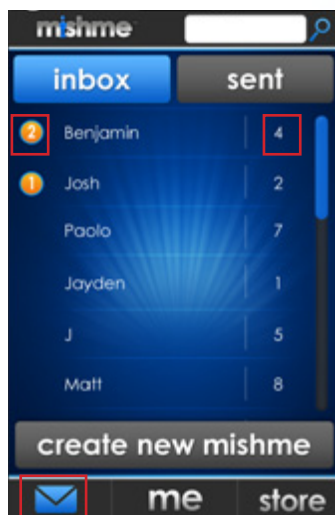

Mishme Messages

Viewing Mishme Messages

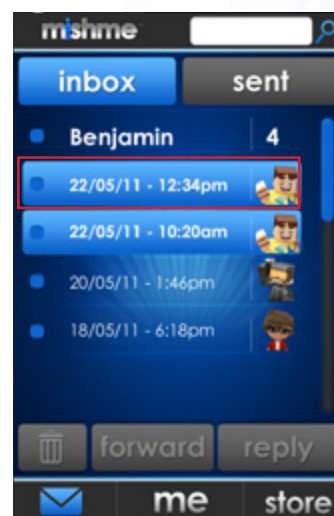

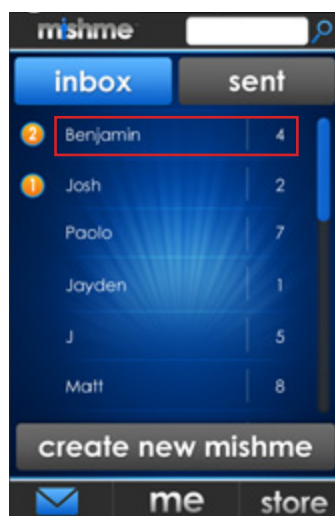

This is the mishme **inbox** your first port of call when opening the app your **inbox** is found under the **mishme messages** section of the app reached by tapping the **"mail" icon** in the bottom left of the screen.

New messages will be marked with a badge to the left informing you how many messages from that contact are new, the number to the right of the contact indicates the number of total messages you have received from that particular contact.

Tapping the **contacts name** will open the **inbox sublist**, tapping the **name** again or tapping the **"Inbox button"** will close it and take you back to the main **inbox**. The **inbox sublist** shows you all the messages received from that contact starting with the newest at the top.

Viewing a mishme message is a simple matter of tapping the desired **message** and you will be taken to the **message player**.

Mishme Messages

Managing the Inbox

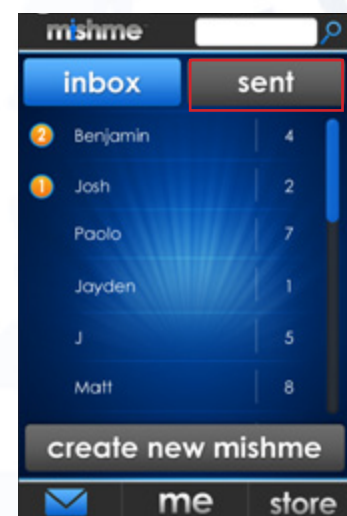

Forwarding and Replying to Messages: To **forward** or **reply** to a message simply select the **checkbox** to the left of the message you wish to use in order to activate the options at the bottom of the screen. If you choose "**forward**" you will be taken to the "**create new mishme**" screen however you may only change the recipient. If you select "**reply**" you will be taken to the "**create new mishme**" screen with the recipient prefilled.

Deleting Messages: To **delete** a message or multiple messages simply select the **checkboxes** to the left of the messages you wish to **delete** then simply tap the "**trashcan**" icon. If you select more than one message "**delete**" will be the only option available at the bottom of the screen. Please note: If you select the **checkbox** next to the **contacts name** all messages from that contact will be selected.

Managing the Sent Box

The **sent** box is there you will find all the mishme messages you have sent to switch to the sent box view you need only tap the sent button next to the inbox button at the top of the screen. the sent box functions in much the same way as the inbox however you will find you are only able to **forward** and **delete** messages.

Mishme Messages

Creating Mishme Messages

There are multiple ways you can start creating a mishme message: You can start a mishme message from the **“My Avatars”** screen found under the **“me”** section to start a mishme message from here you simply need to select the avatar you wish to use and it will take you directly to the **“create a mishme message”** screen with the avatar you selected prefilled.

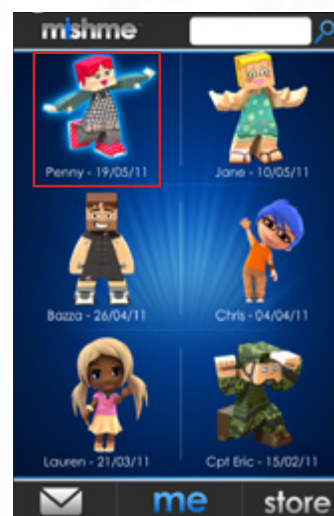

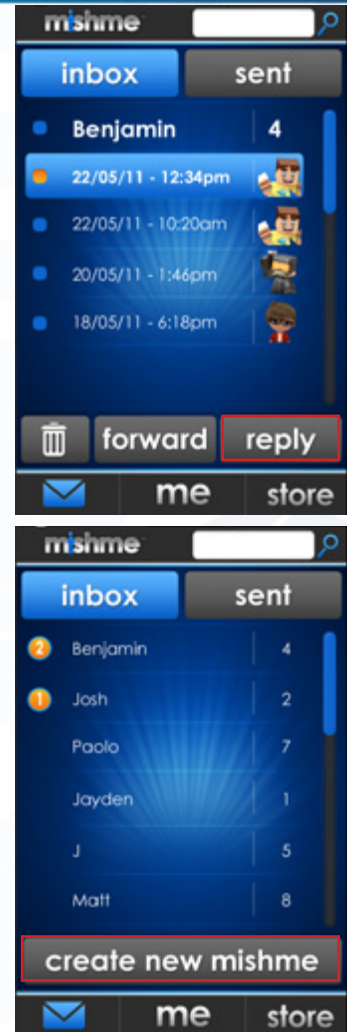

Another way to start a mishme message is by replying to a message you received in your **“inbox”** to do this simply select check box next to the message you wish to reply to and choose **“reply”** from the bottom of your screen and this will take you to the **“create a mishme message”** screen with the recipient prefilled.

The final and most common way to start a mishme message can be found in either your **“inbox”** or your **“sent”** box in which you will see a **“create new mishme”** button at the bottom of your screen, selecting this will take you to the **“create a mishme message”** screen

Now you know how to start your mishme message lets go through the process of building and sending your message.

Building a Basic Mishme Message in 3 steps!

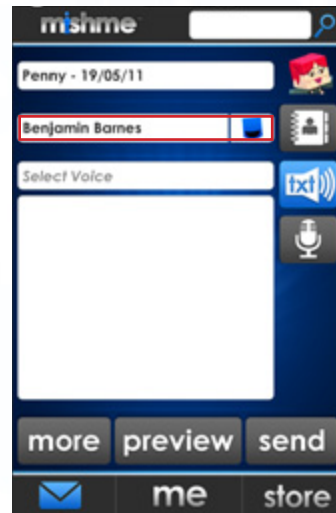

Step 1 Select an avatar: You will find your mishme message prefilled by default with the last avatar used or if this is your first time using mishme it will be prefilled with your free starter avatar. If you wish to change your avatar simply select the **avatar icon** or **text box** and you will be taken to the **“Avatars”** screen where you can select any of the avatars that you have purchased from the mishme store.

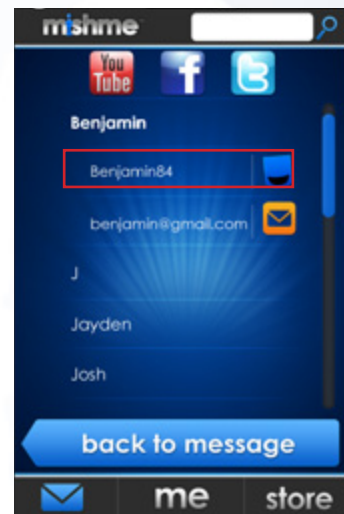

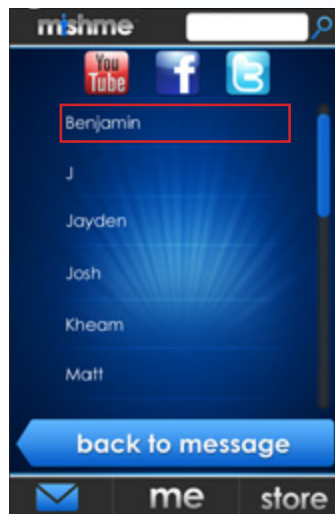

Mishme Messages

Step 2 Select a recipient: If you are replying to a mishme message this option will be prefilled if not you will need to select a recipient.

There are multiple way to select a recipient the simplest way would be to type the recipients email address into the **text box** provided, if the recipient has already been added to your address book then you will find a **predictive drop down menu** appear for you to select from.

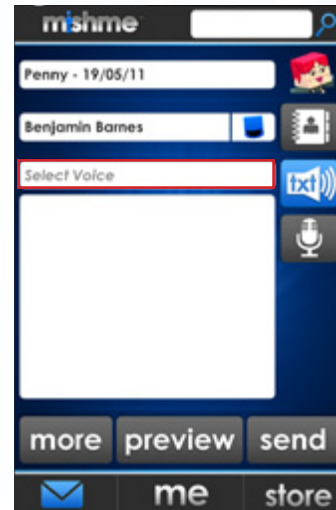

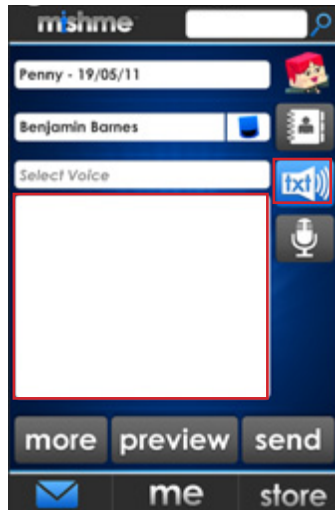

Alternatively you can select the **address book icon** to be taken to your address book where you can select the recipient manually.

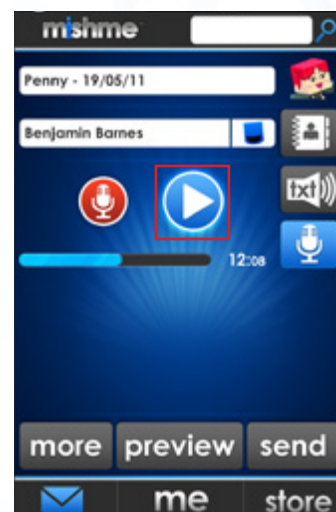

Please Note: You will find options to send to your **face book** and **twitter** accounts within your address book to send to either of these you simply need to select the **appropriate icon** then enter the details into the popup window and allow the app to access your account. This step should only need to be done once when creating future messages you need only select the **icon** then choose "**post**".

Mishme Messages

Step 3 Enter message: There are two ways you can enter your message the first is using a **text to speech engine** this option is preselected it allows you to type your message into the **text box** where it will be converted into audio when sending. You can choose various voice engines for example: adult male, by selecting the "**select voice**" text box and choosing your desired voice from the pop up list provided.

The second option for entering your message is voice recording select the **microphone icon** to switch to this option, then select "**Rec**" to start recording pres "**stop**" when you have completed your message, you can play back your message with "**play**" and re record if necessary.

That is it! you have now created a basic mishme message the only thing left to do is hit "**send**".

Mishme Messages

Building an Advanced Mishme Message

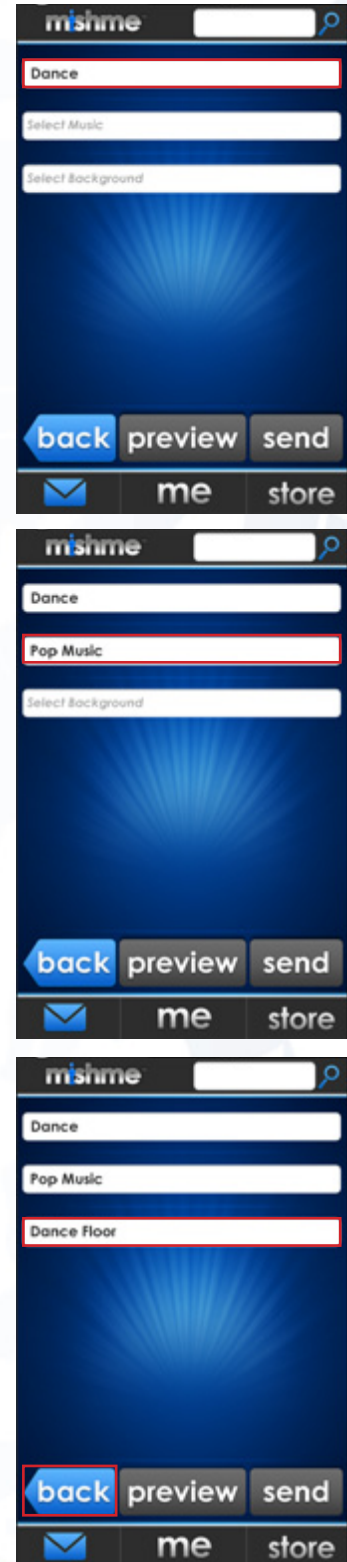

After creating your basic message but before you hit "send" you may notice a button marked "**more**" this is where you would find advanced options such as animations backing sounds and background images in order to give your message a little extra something!

Selecting an animation: Each avatar comes with their own set of animations for you to choose from select an animation by tapping the top "**select animation**" text box and choose your desired animation from the pop up list provided.

Select a backing sound: Mishme comes with a few basic backing sounds for example: storm or laughing man, to give your mishme messages a bit of extra engagement you will be able to purchase more sounds in content packs from the mishme store. To select a sound simply tap the "**select background sound**" text box and choose a sound from the pop up list provided.

Select a background: Take a photo of your surroundings or use any image from your gallery on your phone to make your messaging all the more interesting you can even download official backgrounds to your phone from content packs found in the mishme store. To select a background simply tap the "**select background**" text box and chose your image from your smart phones gallery.

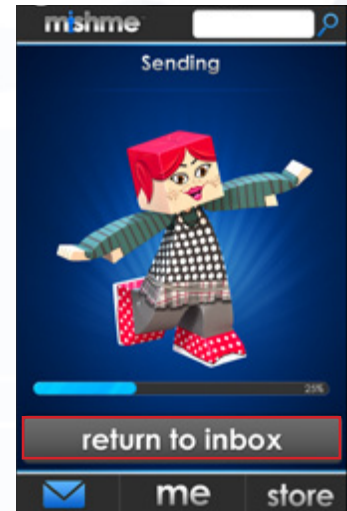

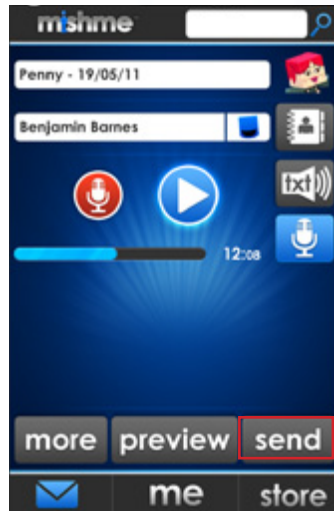

You have now created an advanced mishme message pres "**back**" to return & modify basic options or hit "**send**"

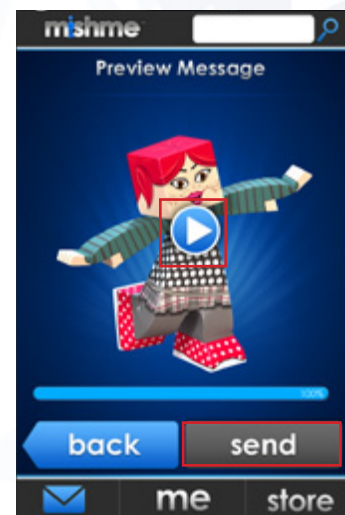

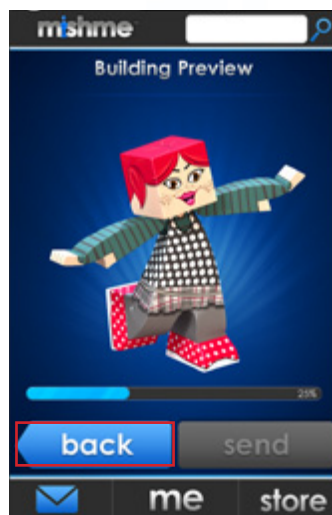

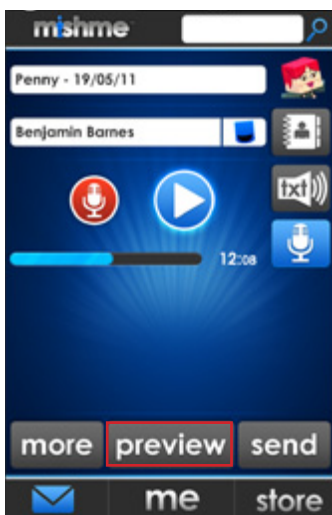

Mishme Messages

Sending a Mishme Message

Once you have hit "send" you can "return to inbox" and it will continue to send in the background.

Alternatively you may wish to see your message before you send it on its way in which case select "preview" instead of "send" this will take you to a screen where your message is being compiled after a few moments the message will be ready for viewing tap the blue play button in the centre of the screen to see your message. If you are satisfied with your message hit "send" or if you need to make a change select "back" to return to the creation screen.

Mishme Store

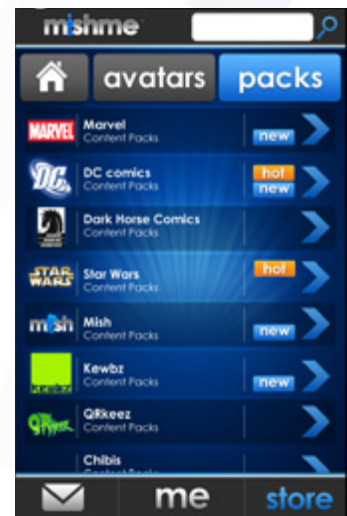

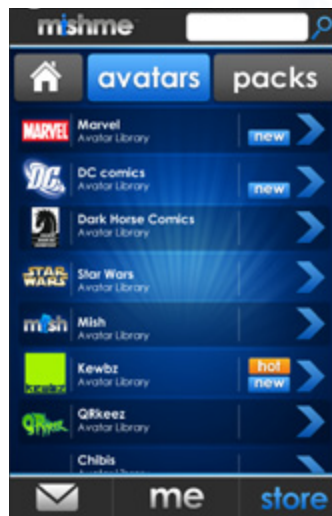

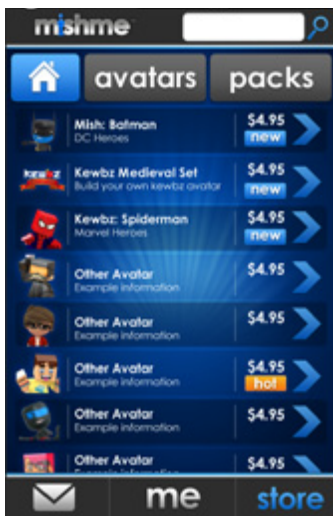

Navigating the Store:

The mishme store is where you will find various Avatars from Premium to Customisable along with micro content and additional content packs for backgrounds and backing sounds. If you know what you are looking for you can use the search function at the top of the screen otherwise you will find the mishme store is divided into three areas:

Home: This is where you will find new and hot selling products to the store, this might include avatars or micro content or other content packs, when you enter the mishme store you will be directed here.

Avatars: You will find avatar's and micro content here (Please Note: micro content is not available for all avatars) Avatars & Micro Content are filed under different categories depending on where they belong for instance kewbz avatars would fit under the kewbz category while 3rd party avatars have their own categories. You may find some avatars fit into two categories for instance a 3rd party branded kewbz avatar would fit both under the kewbz and under the 3rd party category.

Packs: Here content packs can be found these might include background images and backing sounds etc. Like the avatars section Packs has been separated into categories.

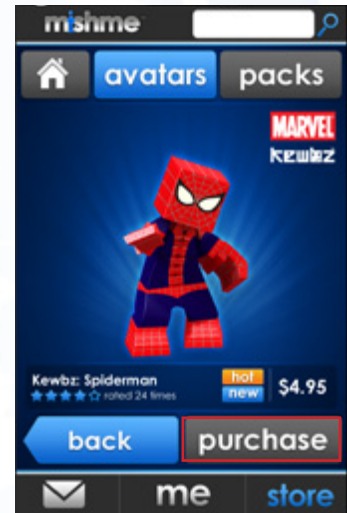

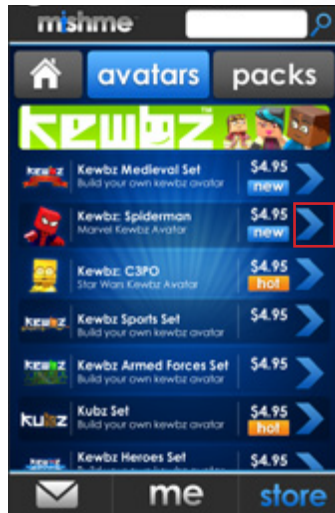

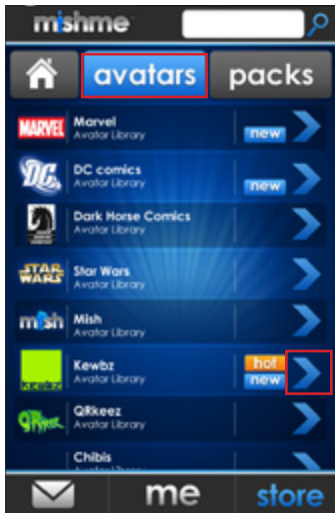

You may notice "**new**" and "**hot**" badges next to specific items these tell you what is new to the store and what is currently popular. Tapping the "**arrow**" icon next to an item will take you to more information and an option to purchase. If you are in a section which has been divided into categories tapping the "**arrow**" icon will take you to a page containing a list of all the items available under that category.

Mishme Store

Purchasing From the Store:

To purchase products from the mishme store is a simple matter once you have found the product you wish to buy tap the **“arrow” icon** to preview it in more detail then select **“purchase”** you will be prompted to enter your **Samsung Google Account** details once this has been completed the product will be added to your mishme account and available to use.

Customisable Avatars such as Kewbz and Chibis require a few extra steps, you will see a **“build”** button instead of a **“purchase”** button, tapping **“build”** will take you to the **avatar builder** where you can select options such as hair style and colour, clothes, eyes, accessories etc until your avatar is complete. Once you are happy with your personally customised avatar you can **“purchase”** or if you change your mind you can choose to **“cancel”**, again once you tap **“purchase”** you will be prompted to enter your **Samsung Google Account** details to complete the transaction.
