

About Mishme™ Enterprises

First established in 2007 Mishme Enterprises is a subsidiary of NTICED Pty Ltd. We are centrally located in Melbourne, Victoria, Australia, with offices in Australian Capital Territory and New Zealand.

Primary Focus

NTICED primary focus is Research and Development and technology innovation. NTICED is also a world leading provider of integrated, animated avatar based software applications and winner of over 40 international/national awards for ICT Excellence.

Mishme is the commercial arm and subsidiary of NTICED. Mishme's primary focus is the delivery of cutting-edge, innovative, avatar based, technology.

Our Vision

Mishme - "Bringing the digital universe to life"

To be the market leader in the creation, use and delivery of digitally created animated avatars and content on any screen based device. The iTunes for avatars!

Our Mission

We want to change the face of communication by creating the next evolution of messaging, online and mobile marketing and promotions through the use of highly sophisticated, fully interactive, animated avatars and content on any screen based device.

Our People

One of our greatest assets is our people. We only employ the youngest, brightest and most innovative talent. We foster and drive a culture of innovation, passion, self-belief and determination to succeed. Our people are inspired and motivated. They are specialists in their fields of expertise and we entrust and empower them to get on with the job and to deliver exceptional results.

Our Philosophy

Our philosophy is to recognise the contributions made and to share our success with key contributing staff. We don't do things like most companies.

Culture

Our culture and approach is very different and unique. A key cornerstone of our people focus is distributed and shared leadership. We expect our people to assist us through open sharing of ideas, along with deep understanding of key market opportunities, changes and shifts. This gives us a great opportunity to develop a collaborative shared vision across the organisation.

We also create time for our people to work on 'skunk works' projects. Giving them time to explore and develop their raw ideas for Mishme's future benefit.

Join the Team!

If you think you'd bring something special to our organisation and that you have the right skills, competencies and attitude to succeed we'd like to hear from you.
